FORTRON

AUTOMOTIVE TREATMENTS

Fortron REGEN Diesel Particulate Filter (DPF) Cleaner has been specifically formulated to aid and assist when in-house DPF regeneration is required.

When used in conjunction with the Fortron Injector Max Machine, REGEN will eliminate the need to remove blocked or partially blocked DPF units. This is achieved by creating a unique catalyst to clear soot deposits without the need of disassembly.

SUMMARY OF BENEFITS

- Cleans and allows DPF regeneration.
- Allows cleaning without disassembly.
- Reduces soot and exhaust gas emission.
- Cleans fuel injectors and upper cylinder area.
- Improves engine performance.
- Suitable for all types of diesel injection systems.
