

PRODUCT DATA SHEET
Cooling System Treatment

FORTRON
AUTOMOTIVE TREATMENTS

Fortron Cooling System Treatment is a super concentrate, water-based coolant inhibitor that contains proprietary organic acid technology (OAT). This product provides excellent cooling system protection for petrol, diesel and gas engines, in passenger cars, buses, tractors, trucks, industrial equipment, marine equipment and mining equipment. Fortron Cooling System Treatment is a result of extensive laboratory and fleet testing on the core technology components of this product.

Corroded Cooling System

Cooling System treated with
Corrosion Inhibitors

SUMMARY OF BENEFITS

- Extended life engine coolant with maximum cooling system protection
- Helps reduce foaming, electrolysis and cavitation
- 2 year minimum shelf life stability; no possibility of silicate drop-out or gel formation
- Compatible with other long life organic acid technology (OAT) based engine coolants
- Universal use, recommended for use in all vehicle types and applications, including heavy duty
- Non-hazardous, non-toxic, non-flammable
- Biodegradable
