

PRODUCT DATA SHEET
DIESEL TURBO CLEANER

FORTRON
AUTOMOTIVE TREATMENTS

A diesel fuel tank treatment, formulated to assist in cleaning and maintaining the cleanliness of the turbine and turbine housing in Diesel Turbo Chargers.

When used as a regular treatment, Diesel Turbo Cleaner will remove soot and ash deposits that can build up in the turbine housing and on the turbine itself. Continued, regular use can prevent further deposits, preventing potential wear and allowing the turbo to operate more efficiently.

SUMMARY OF BENEFITS

- Aids the removal of deposits in the turbine housing
- Helps prevent the deposit of soot & ash in the turbo
- Assists the removal of ash build up on intake valves & injectors
- Helps cold starting
- Suitable for all types of diesel fuel.
