

Fleet Wash – Eco Series

Fortron Fleet Wash is a general purpose cleaner / detergent for use in the cleaning of heavy machinery, trucks, mining equipment, car washing and steam cleaning, garages and workshops, floors, kitchens, ablutions, factories, aircraft, canteens, offices, etc.

SUMMARY OF BENEFITS

- Fortron Fleet Wash is a carefully blended composition of surfactants and wetting agents which will emulsify dirt and hold it in suspension.
- Fleet Wash is water based, fully biodegradable, non-flammable and can therefore be used in an underground application and in any area where flammable products are prohibited.
- Fleet Wash will not harm paintwork and will remove grease, oil, dirt and grime from all hard surfaces. The product has a high dilution rate and is therefore very economical in usage.
- The versatility of this product will meet all cleaning and maintenance requirements of all hard surfaces in domestic, commercial and industry applications.
