

Triple Clean – Eco Series

Fortron Triple Clean is an all powerful detergent degreaser and when mixed at a dilution rate of 1 part to 5 parts water is 90% as effective as a solvent based degreaser.

BEFORE

AFTER

FEATURES

- Fast and easy single application.
- Proven cleaning and safe lubrication technology.
- Does not effect catalytic converters and sensors.
- No harsh cleaning solvents.

FACTS

- Sludge and residue restrict oil flow.
- Just changing oil alone will not remove all contaminants.

AFTER SERVICE BENEFITS

- Ensures internal engine components are clean after Service.
- Extend new oil life and maintain service intervals.
- Allows full and rapid flow of clean oil.
- Safely removes sludge, dirt and other contaminants.
