

Petrol Injector Cleaner

Fortron Petrol Injector Cleaner is a highly concentrated cleaning treatment designed to combat deposits in the fuel injection systems of modern vehicle engines.

BEFORE

AFTER

FEATURES

- One Simple Application – suitable for all grades of petrol.
- Will not harm Oxygen Sensors or Catalytic Convertors.
- Non-Corrosive, Non-Foaming.
- Proven effectiveness and safe technology.

DID YOU KNOW

The longer the engine runs on normal quality fuel, i.e. without special treatment, the greater the reduction in Injector efficiency.

AFTER SERVICE BENEFITS

- Cleans the complete fuel system.
- Improves engine performance and fuel economy.
- Reduces exhaust emissions.
- Provides upper cylinder lubrication.
- Improves rough idle and reduces hesitation.
