

PRODUCT DATA SHEET

Dynasty Super Universal Motor Oil (Semi Synthetic – 15W/40 & 20W/50)

Dynasty Super Universal Motor Oil delivers the engine protection required by new engine designs and severe operating conditions. It protects engines during stress of cold starts as well as short trip driving.

It provides high temperature protection in all grades by exceeding the toughest modern standards for protection against thermal breakdown.

SUMMARY OF BENEFITS

Formulated to overcome the stress of stop and go driving. Dynasty Motor Oil provides outstanding protection against viscosity breakdown. This product contains a balanced blend of high performance, high quality base stocks and specially formulated additives. It is engineered to exceed the demands of today's high performance engines that operate under more severe conditions for passenger cars, light trucks, vans and sport utility gasoline engines including turbocharged system.

Dynasty Motor Oil comes in SAE grade 15W/40 and 20W/50 and meets the requirements of API SJ/CF/CF4, ACEA A2-96#2, A3-98, B2-98, B3-98, E2-96#2, VW 500/501/505, BMW special oil, Mercedes-Benz 229.1, Mercedes Benz 228.1 and Porsche GL.

- Formulated for stop and go driving
- Protects against rust and corrosion
- Exceeds the highest U.S. standards for automotive engine wear protection
- Protects engines under severe driving conditions
