

Fuel Injector Cleaner

Fortron Fuel Injector Cleaner is formulated to clean all types of fuel injection systems. It will assist in removing carbon from upper cylinder areas to improve fuel/air flow.

BEFORE

AFTER

SUMMARY OF BENEFITS

Fortron Fuel Injector Cleaner when used as directed will assist in the following:

- Improve Engine Performance
- Return Spray Patterns to Original Specification
- Clean Gum, Varnish and Carbon from Injectors and other Combustion Chamber Components
- Requires Fortron EFI Kit for application.
