

## PRODUCT DATA SHEET

# Hi-Tane Diesel Fuel System Booster (Diesel Engines)

**FORTRON**  
AUTOMOTIVE TREATMENTS

Fortron Hi-Tane Booster has been developed particularly for the purpose of increasing Diesel Cetane – resulting in improved overall engine performance. The Hi-Tane Booster will increase Fuel Cetane rating by as much as 4 points.

This product has been designed to increase engine performance and help maintain an efficient fuel system by aiding in the removal of carbon and resin deposits.

### SUMMARY OF BENEFITS

- Contains a cleaning agent to effectively clean the entire fuel system.
- Increases Diesel Cetane rating by as much as 4 points.
- Improves lubrication and corrosion protection.
- Helps reduce exhaust emissions and rough idle.
- Improves low temperature starting.
- Safe with Diesel Particulate Filters (DPF).
- Suitable for Hi-tech common rail and direct injection diesel systems.
- Compatible with recognised bio-diesel fuels.
